1) Introduction of the Department of Regional Management and Law

doc. PhDr. Miloslav Lapka, CSc. and members of DRML

Presentation Content

1) Introduction of the Department of Regional Management and Law

- Structure (staff)
- Task of the Department
- Scientific Focus of the Department

2) Results of the Department of Regional Management and Law

- Significant outputs list of results
- Projects and Grants Overview
- Professional Recognition
- Activities organized by RML Department

3) Plans and limitations of the Department of Regional Management and Law

4) Attachment of Department of Regional Management and Law FE USB in České Budějovice in txt separate form 2022 presentation contains:

- I. Full list of courses provided by the Department of Regional Management and Law
- II. Full list of publications and results
- III. Full list of Grants, contracts, etc.

Tasks of the Department

Study programmes over 5 years:

Structural policies and rural development Postgraduate Master AC
doc. Ing. Eva Cudlínová. PhD.

Management of Regional Development Bachelors PR Dvořáková
Líšková Zuzana, doc. RNDr. Ph.D.

Management of Regional Development Postgraduate Master AC
Klufová Renata, doc. RNDr. Ph.D.

Regional and European Project Management Postgraduate Master
AC Škodová Parmová Dagmar, doc. Dr. Ing.

Economics and Management doctoral Faculty 2 subjects

Tasks of the Department

Number of students studying courses provided by the Department of Regional Management and Law

	Academic year 2020/21	Academic year 2021/22
Winter semester	879	799
Summer semester	566	425
Total	1 445	1 224

Number of courses provided by the Department of Regional Management and Law

Courses in total	State examination courses	Bachelor and master theses
Courses		
180	14	13 (CZ - 10; ENG -3)
Czech language courses

Scientific Focus of the Department

The **Department of Regional Management and Law** is an important part of the Faculty of Economics of the South Bohemian University. It represents an **interdisciplinary approach to teaching and research**, shaped by the **ideas of regional and sustainable development, environmental and ecological economics and a pluralistic concept of economics** (i.e. plurality in theory and methodology and interdisciplinarity). The Department **combines a theoretical interdisciplinary approach with a practical focus on regions and their needs**, which takes the form of **cooperation with mayors, the creation of municipal development plans, the preparation of projects and consultations with representatives** of national and regional associations of Local Action Groups.

The **Law Section** ensures the teaching of subjects and the development of topics in the **field of legal disciplines, with a focus on both economic and technological fields. Civil and commercial law** (with an emphasis on corporate law and insolvency law closest to economics), **administrative, trade, financial and labour law** are further developed. Particular attention is paid to the development of the teaching of **European law**.

The **diversity of approaches is also due to the personnel composition of the department**, whose members have, in addition to economics, law and regional studies, a background in sociology, geography, political science, cultural studies and applied ecology.

Scientific Focus of the Department Summary

Regional management research:

1. Balanced and sustainable development in the regions in terms of the SDGs,
2. Economic alternatives - green economy, bioeconomy and circular economy,
3. Socio-economic solutions to the energy and climate crisis.

Topics currently addressed include circular bioeconomy, socio-economic aspects of environmental degradation and alternative food production, brownfields issues, the role of local action groups in the Czech Republic and the EU, comparison of strategic documents at the national regional level, measures to support ecosystem services in the landscape and support for the development of smart regions and cities.

„A defined face of department: regional management and development, sustainability, environmental socio-economical context, bioeconomy, interdisciplinarity“

Legal research activities focus on areas with an emphasis on regional and environmental contexts:

1. Law in Business,
2. Legal aspects of exchange rate risks,
3. Economics crime.
4. Simulated court proceedings as a tool for modernizing teaching

3) Plans and limitations of the Department of Regional Management and Law

doc. PhDr. Miloslav Lapka, CSc. and members of DRML

Plans and limitations

Plans in line with the research focus of the Department of Regional Management and Law

Scientific plans for next 3 years

- Develop European level of bioeconomy in social and environmental contexts:

Publications and Research in progress: GKCH perceives by rural communities in Mexico, perception of energy mix, SDGs and bioeconomy strategies of West, bioeconomy in products and others related topics,

- International Grants
- International cooperation

Increasing individual qualification

- 2 habitation theses
- 2 professorships (one is half-ready)

Pedagogical

- the perspective of the Department through our PhD students – possible proposal of doctoral studies *Regional sustainable management and socio-economic development*
- domestic cooperation with the Czech University of Life Sciences Prague (ČZÚ), Prague University of Economics and Business (VŠE), Institute of Sociology of the Czech Academy of Sciences

Plans and limitations Summary

Vision of 3i team included graduate and PhD. students:

- Inter-Disciplinary
- Inter-Institutional
- Inter-National

Limitations of this vision and department:

- No. of students really involved in the science (internal, external and individual limitations)
- Permeability across universities
- Organizational disturbances – to build a good productive team is long-term run
- Increasing competitions in terms of International grants applications (5%-10% of success)
- Increasing competitions in terms of IF prestigious publications and very high fee
- Priorities in Research science and education of Czech governments
- Criteria for social sciences – focus on IF fetish

„Be visible at least in the European academic community - be asked to participate in international and national projects.“

„Develop the socio-economic and environmental face of the department.“
